New Massey Ferguson 1376 Disc Mower Conditioner
Trailing mower conditioner, centre pull (works either side)
3 meter Razor Edge cutter bar, six discs, two blades per disc
Knives swing back and are reversible
Steel herringbone style roller conditioner.
Adjustable windrow 1.06-1.85 metres wide
540 RPM PTO.
If you're looking for commercial-grade side-pull disc mower conditioners, look no further than the 1373 and 1376 models with patented RazorEdge Header. The modular, heavy-duty design makes them super durable, virtually eliminating costly downtime. Not only do the wide-profile teeth offer increased gear-to-gear contact, but the entire drivetrain is designed to handle maximum load at all times. An industry exclusive, the RazorEdge Header's sealed bearings don't require constant lubrication, no matter the slope of the terrain. Should the worst happen, the gear spindle will shear outside the cutter bed, keeping contamination away from the gears.
